Co-founder & CTO at Hyperplan: satellite imagery, machine learning and crop analytics for agtech and commodities.
Previously McKinsey, Schlumberger, École Polytechnique.

EXPERIENCE

CTO & Co-Founder

2021 – Today

[Hyperplan](#) • Paris, France

Tech and product lead of a SaaS agricultural intelligence platform.

- Designed the data architecture, satellite ingestion and spatio-temporal prediction engine.
- Built a large-scale geospatial feature store (Parquet, DuckDB, PostgreSQL).
- Hired and led a team of engineers and data scientists.

Consultant - Senior Data Scientist

2018 – 2021

[McKinsey & Company](#) • Paris, France

End-to-end data projects across healthcare, industry, energy and retail.

- Delivered AI, optimisation and analytics use cases, deployed to production.
- Technical lead and mentor for client data teams.

Petroleum Engineer - Data Scientist

2014 – 2017

[FOROIL](#) • Paris, France

Data analysis and production optimisation of mature oil fields.

- Led a strategic production optimisation project.

Drilling & Measurement Field Engineer

2012 – 2014

[Schlumberger](#) • Takoradi, Ghana

Offshore deepwater LWD / MWD field engineer on exploration wells (>2M\$/day rigs).

- Ran real-time acoustic, resistivity and nuclear (neutron, gamma) logging tools.
- Radioactive source handling and wellsite safety in 24/7 offshore operations.

Research Intern

Apr – Jul 2011

[Peking University - Guanghua School of Management](#) • Beijing, China

Research internship in a Chinese-speaking team.

Officer Cadet - Deputy Company Commander

2008 – 2009

[Gendarmerie Nationale](#) • Saint-Martin, French Caribbean

EDUCATION

Energy Economics, Strategy, Finance - MSc

2011 – 2012

[IFP School](#)

Oil & gas strategy, project management, energy finance.

Engineering Degree

2008 – 2012

[École Polytechnique](#)

Physics, mechanics, economics, econometrics.

SKILLS

Leadership	Tech & product strategy, hiring and growing engineering teams, agile delivery.
Architecture	SaaS platforms, data & ML systems at scale, geospatial pipelines, cloud (Azure, GCP).
AI & Data	Machine learning, satellite imagery, time series, optimisation.
Business	Strategy consulting background, client-facing delivery, C-level communication.
Stack	Python, PyTorch, FastAPI, PostgreSQL, DuckDB, Docker, CI/CD.
Languages	French (Native) English (Fluent) Chinese (Intermediate)

INTERESTS

- Amateur radio (F4MWA, ANFR licence 2025): Morse code at 5 watts from summits and national parks.
- Film photography, trail running, bike touring, hiking.
